

SB4.5r Fitness Bike

Not all recumbent bikes are created equal. The XTERRA Fitness SB4.5r recumbent bike is Top-In-Class for its style, performance and comfort. This walk-thru design features a large mesh back seat for maximum comfort and support as well as keeping you cool while you exercise. The extra large blue backlit LCD display is easy to read and conveniently located swivel fan and speakers allow you to listen to your favorite music. A commercial strength belt drive system with a 22 lb flywheel delivers a smooth, quiet and effective workout. A user weight limit of 300 lb and lifetime warranty on the frame and brake along with three years parts and one year in-home labor gives you piece of mind that XTERRA Fitness stands behind its products.
